

INTEGRATED QUALITY, FOOD SAFETY, OCCUPATIONAL HEALTH AND SAFETY AND ENVIRONMENTAL POLICY

JUNCA GELATINES, S.L. considers the Integrated Quality, Food Safety, Occupational Health and Safety, and Environmental Policy a tool for developing a continuous improvement mindset within its organization. The company recognizes that the only way to implement this policy is by guaranteeing the safety and health of its team and always operating in accordance with the fundamental principles of sustainability.

The aim of continuous improvement is to obtain a safe product that meets the quality standards demanded by the gelatin and collagen market, ensuring full compliance with regulations on Food Safety, Food Defense, and Food Fraud.

The company is convinced that in order to make this Policy effective, it has to implement new technologies that improve the production process and products, and invest in a continuous training plan for its team in the Culture of Quality, Food Safety, Occupational Health and Safety, and Environmental Management. These resources constitute the company's true know-how.

JUNCA GELATINES, S.L. is committed to developing these principles by operating efficiently, minimizing food waste, and paying attention to environmental sustainability, safety, and legal and social factors in all areas. The company aims to operate in balance with the world around it, always trying to reduce its impact.

In addition, it is committed to ensuring effective internal and external communication to maintain a climate of respect and interaction aimed at promoting the well-being of all.

Following this methodology, JUNCA GELATINES, S.L. establishes and reviews improvement objectives for all these principles and, with the support of obtaining and maintaining new certifications, is able to meet the needs of its customers and face future challenges with optimism and ambition.
